

# DISPENSING **DOUBLE-CHECK**

4 CRITICAL STEPS TO ENSURE YOUR DISPENSING SUCCESS

## 1. FUNCTIONALITY

Choosing the optimal dispensing system and container

### CHECK THIS

Test different options to find the best match for:

- Your product type
- Viscosity
- Customer experience

### DOUBLE-CHECK THIS

- Ask for samples
- Always try samples with your product

## 2. COMPATABILITY

Confirming all components work together seamlessly over time

### CHECK THIS

Make sure your potential supplier:

- Offers established compatibility testing
- Performs testing and documents results for you

### DOUBLE-CHECK THIS

- Do an accelerated aging test with a product oven

## 3. FILLING/CAPPING

Making certain your machinery is set up to handle the components

### CHECK THIS

Test your machinery with the components to confirm:

- Filling and capping runs efficiently

### DOUBLE-CHECK THIS

- Test filling and capping multiple times, it's that important

## 4. LOGISTICS

Shipping products and checking for incoming and outgoing quality

### CHECK THIS

Ship your product across country and back, then check:

- Overall packaging condition
- Leakage

### DOUBLE-CHECK THIS

- Perform vacuum testing

## NOW CHECK THIS

NEED SAMPLES OR HELP WITH TESTING?

Talk to the Solutions Specialists at Carow Packaging.

We understand that your packaging represents your brand to your customers. That's why we're so committed to your dispensing success.
