

## The EuroDrop® Advantage.

Carow is the only U.S. manufacturer of EuroDrop, the most precise dispensing solution for essential oils. Compatible with any 18-DIN cap and 18-DIN bottle, these highly popular products provide a faster, more reliable and more efficient dropper system.

## 18-DIN by the Numbers

**UNLIMITED**

Cap colors available from Carow: seven standard colors or unlimited custom options, including color matching.

**18** **WHAT?**

18-DIN refers to the neck size of a bottle. Because this size is the industry standard, 18-DIN bottles have many built-in advantages.

The standard number of twists on/off for 18-DIN compatible caps. Since 18-DIN necks feature threads that are all the same diameter, the turns per centimeter are always the same, too!

**2.5** ML <-----> **120** ML

# What Is 18-DIN and Why It Matters

## ★ German Origins

“DIN” is short for ‘Deutsches Institut für Normung,’ which translates from German as “Institute for Standardization.” DIN standards are set for everything from dropper bottles to international paper sizes and German typeface for traffic signs.

## Additional 18-DIN Benefits
