Dispensing Success

Since 1987, we've ensured our clients' packaging success by providing fast turnaround times and responsive support for a broad selection of high-quality products. Each dispensing solution, from our EuroDrop® line to our bulk caps and bottles, is known for consistency and dependability, elevating some of the most popular and beloved global brands.

Our packaging helps products amass loyal customers, establishing a foundation of excellence that sets them apart in the market.

The Carow Advantage

Made in the USA

Many Carow products are made and distributed in the U.S., which means supply chain certainty, shorter lead times, reduced shipping costs and a lower environmental impact than overseas shipping. We also provide competitive pricing and local support.

Specialized Expertise

We are focused exclusively on delivering packaging products and solutions, including being the original provider of the EuroDrop® system in the U.S. market.

Comprehensive Solutions

Our full spectrum of packaging products includes complete packaging systems, caps, droppers and bottles in an unlimited number of custom colors.

Manufacturing and Distribution

We have experience across the full spectrum of services to provide the ultimate in flexibility, from production tooling and assembly to warehousing and delivery, plus kitting, supplier-managed inventory solutions and more.

Service-First Culture

Since our founding in 1987, we've helped our customers surpass their competition. Our U.S.-based team delivers exceptional responsiveness, superior support, fast response times and long-term reliability.

Dispensing Precision

The Original EuroDrop Dispensing System

EuroDrop® is universally recognized as the best system for precise drop dispensing. It offers better sealing, no insert corrosion and the precise measuring necessary for essential oils, tinctures, herbal extracts and aromatherapy products.

The Proven Packaging Solution for Precisely Dispensing Drops

Carow Packaging was the first to introduce EuroDrop® to the United States and is their only U.S. manufacturer. The wide variety of sizes and our stringent quality control allow users to control the flow rate of their products with total accuracy. We'll help you identify the best cap, dropper and bottle for your needs, solve your production challenges and ensure your dispensing success.

Dispensing Quality

The World's Finest Dropper Bottles

We curate our dropper bottles from the finest manufacturers in the world, ensuring the highest and most consistent quality. By keeping an ample supply stocked at our U.S.-based warehouses, we provide fast turnaround and delivery. Plus, each bottle is backed by incredible support from our U.S.-based team.

Custom and Consistent

Our bottles come in an 18-DIN neck, the industry standard that fits nearly all caps, including our exclusive EuroDrop® line. Select your bottle capacity, choose a vertical or horizontal dropper insert and pick a cap style to complete your all-in-one dispensing system. Our dropper bottles are ideal for essential oils, tinctures, extracts, aromatherapy and medicine.

Multiple Dropper Bottle Options

- Amber, Blue, Flint, Green
- 2.5 mL to 120 mL
- Decorative Options: Frost, Spray, Print

The Benefits of Glass

Glass bottles are satisfyingly heavy, adding a sense of luxury and value to a product. On the practical side, they are impermeable to gases and heat-resistant, making glass bottles the ideal oxygen barrier for sensitive products like essential oils. Because glass is easy to clean and sterilize, glass bottles also reduce the risk of contaminants that could harm product quality.

One additional benefit cannot be understated: glass is environmentally friendly since it can be recycled without losing quality or purity. We can even offer glass made with up to 70% post-consumer recycled (PCR) content.

Dispensing Consistency

Dropper Pipettes Available in a Wide Array of Options

High-quality bottles and caps require equally impressive dropper pipettes to ensure consistent and precise dispensing. Ours are manufactured and curated for performance and value and are backed by incredible support from our U.S.-based team. We offer an impressive selection of bulb and pipette materials, lengths and sizes, standard and customizable colors, cap styles and deco options. With our help, you can make your dropper pipettes as unique as your product.

Multiple Dropper Pipette Options

- Regular
- Child-Resistant
- Tamper-Evident
- Child-Resistant/Tamper-Evident

Dropper Pipette Specs

Dispensing Versatility

A Nearly Unlimited Selection of Adaptor Caps

With a wide variety of colors, closures, neck and base sizes, shapes and finishes to choose from, your adaptor caps can be as unique as your products. The vast number of options allows you to mix and match sizes, colors and styles to form a nearly unlimited number of options. Use them for jar pumps for lotion, soap, syrup and condiments. Combine with a pump and jar from Carow's vast product line to create a complete dispensing solution.

Multiple Adaptor Cap Options

- Black, White or Any Custom Color
- Variety of Liner Options for Better Sealing
- Decorative Options: Frost, Spray, Print
- Available with Pump (2 cc to 30 cc output)

Dispensing Practicality

An Impressive Selection of Boston Round Bottles

Capable of holding almost any liquid, the rounded shoulder profile of the Boston Round bottle is popular in the beauty, health and chemical markets. Our bottles come in a variety of colors, including amber glass. They are ideal for essential oils, tinctures, extracts, aromatherapy and medical products. Curated to ensure consistent quality and value, we keep an ample supply of Boston Round bottles stocked at our U.S.-based warehouses for fast turnaround and delivery.

Multiple Boston Round Options

- Amber, Blue, Flint
- 0.5 oz, 1 oz, 2 oz, 4 oz, 8 oz, 16 oz

The Qualities of Amber

More so than other colors of glass, amber uniquely blocks harmful UV rays. In fact, amber glass is the industry standard for UV protection. UV rays are well known for their ability to harm the eyes and skin, but they can also degrade the chemical makeup of oils. The substances added during the glass production process provide its signature dark amber color, which blocks the UV ray spectrum.

Dispensing Options

Unlimited Options of Pumps & Sprayers

Since 1987, we've delivered the finest packaging solutions, including a wide variety of pumps and sprayers. From syrups to lotions to body mist, our products dispense large or minute quantities. They come in black, white or any custom color, and their tube lengths can be adjusted to fit your specific container size. Each is manufactured and curated to give you the highest quality and best value.

Dispensing Applications

Caps That Pair High Value With Impressive Quality

You name the cap; we have it — with the highest quality and best value. Our caps, like all our products, are curated for ultimate performance and reliability and backed with incredible support from our U.S.-based team. Flip-top, continuous-thread, roll-on, spatula, tamper-evident and child-resistant cap styles are all available, each in a variety of materials, sizes, textures and colors.

Multiple Cap Options

- Applicator Caps
- Brush Caps
- Plastic Screw Caps
- Dispensing Caps
- Child-Resistant Screw Caps
- Tamper-Evident Screw Caps
- Phenolic and Urea Screw Caps
- Spout Caps
- Pull-Push Caps
- Metal Screw Caps

Pull up to open. Push down to close. These simple-to-use caps are perfect for all sorts of beauty, beverage and chemical products.

Cap Specs

DIAMETER OPTIONS	20 mm, 22 mm, 24 mm, 28 mm, 33 mm, 38 mm
SKIRT OPTIONS	400, 410, Special
LINER OPTIONS	Foam, Cardboard, Tamper-Evident, Lift N Peel, Pressure-Sensitive, Induction Heat-Seal, Donut
COLOR OPTIONS	White, Black, Custom

Dispensing Applications

Multiple Cap Options

Roll on Ball, Fitment and Cap

With this roller-ball assembly and cap, you can easily add a roll-on topical product to your line. The stainless-steel ball with a black low-density polyethylene (LDPE) fitment allows for smooth, clog-free application. To complete the leak-free package, add a matching roll-on cap and vial.

Roll on Ball, Fitment and Cap Specs

BALL OPTIONS	Stainless, Plastic
CAP OPTIONS	Plastic, Phenolic, Urea
COLOR OPTIONS	Natural, Black or White Neck Finish

Spatula Caps and Brush Caps

Do you need applicator caps that fit your dropper bottles? Spatula caps' and brush caps' 18-DIN necks fit all capacity 18-DIN dropper bottles.

Spatula Cap Specs and Brush Caps

CAP OPTIONS	Screw, Tamper-Evident, Child-Resistant, Child-Resistant/Tamper-Evident

Dispensing Sustainability

Eco-Friendly Materials and Processes

Consumers prioritize sustainability, and those preferences continue to increase. We help brands keep up with market demand by offering a variety of environmental responsible packaging solutions. Our procedures and processes include the following.

Customer-Friendly

- Eliminating wasteful packaging and overpackaging
- Reducing the use of non-sustainable materials

Sustainability-Focused

- Offering glass bottles that are made with 100% recyclable post-consumer recycled (PCR) material
- Providing polypropylene pumps and screw caps recognized and accepted by most residential recycling programs in the U.S.
- Working with bottle suppliers certified by EcoVadis, one of the most respected sources for global sustainability ratings

Eco-Friendly Manufacturing

- Manufacturing at locations that have pledged to reduce water usage and carbon emissions
- Partnering with many corporations certified for their social and environmental performance
- Working with companies that have sustainability pledges which mirror our own commitment to environmental responsibility

Overseas Manufacturing and Shipping

- Manufacturing many dropper caps and pipettes inside the U.S.
- Being the only U.S.-based manufacturer of EuroDrop® caps and inserts
- Using local suppliers to eliminate environmental damage from global shipping
- Producing products that improve environmental, social, and corporate governance (ESG) scores

A Legacy of Dispensing Success

Since 1987, we have focused on building success for our clients with exceptional packaging and dispensing solutions. We deliver only the finest products, including industry-leading innovations such as our EuroDrop® caps and droppers. A U.S.-based provider, we pride ourselves on fast response, quick turnaround times and industry-leading innovation.
